2.A. Process for Monitoring Implementation: Describe how the LEA will ensure that the interventions it implements, including but not limited to the interventions implemented under Section 2001 (e) (1) of the ARP Act to address the academic impact of lost instruction time, will respond to the academic, social, emotional, and mental health needs of all students, and particularly those students disproportionately impacted by the COVID-19 pandemic, including students from low-income families, students of color, English learners, children with disabilities, students experiencing homelessness, children in foster care, and migratory students.

Description:

Staff will work in PLCs to identify the essential standards that students have missed in prior years. Based on the personalized model used this process requires staff to take a unique look at gaps in student learning. Student progress is assessed and reviewed individually then standards are grouped based on similar gaps. The essential standards that are targeted are reviewed/retaught in small group or individual settings.

2.B. Process for Evaluating Implementation: Please describe how the LEA will evaluate the effectiveness of these interventions.

Evaluation:

All available data will be analyzed in PLCs to determine effectiveness and the need for continuing the service. Teachers will analyze, interpret, and use formative assessment data to regularly monitor progress toward individual student progress. Teachers will collaborate weekly to review student assessments and reflect on practice, share best practices, and develop plans to address students who are still struggling and students who have mastered the concepts.
